THE MONTH AT A GLANCE

Calendar

One topic per week across AWS, FinOps and IT Procurement. Together they seed the cost-control story ahead of the February webinar.

W1 — AWS — Mon 2 to Fri 6 Nov

AWS consultancy vs managed services

Editorial + optional quote card

W2 — FINOPS — Mon 9 to Fri 13 Nov

Five places your cloud cost hides

Carousel, 8 slides

W3 — AWS / FINOPS — Mon 16 to Fri 20 Nov

What FinOps actually is

36s vertical video (muted-safe) + myth vs reality card

W4 — IT PROCUREMENT — Mon 23 to Fri 27 Nov

The real cost of a device fleet

Editorial + carousel, 7 slides

W5 — FINOPS — Mon 30 Nov onward

Your AWS cost-control checklist

Carousel, 8 slides

GUARDRAILS

Design rules

Navy #0A0F1A

Blue #2C72DB

Bright #3B8BFF

Grey #AEBACC

COLOURS

Navy #0A0F1A. Blue #2C72DB and #3B8BFF. Grey #AEBACC.

TYPE

Poppins throughout. Semibold headlines, light body.

SIZES

Carousel and single image 1080 x 1350. Video 1080 x 1920 vertical.

COPY

No em dashes. Short sentences. British spelling.

NUMBERS

No figures or stats on the image. They go in the post, with a source.

LOGOS

No third-party product logos. AWS service names as text only.

VIDEO

Reads fully with the sound off. On-screen text throughout.

SERIES

Every asset carries the service and week tag, top right.

WEEK 1 · MON 2 TO FRI 6 NOV · AWS

01

AWS consultancy vs managed services

Which are you actually buying, a decision, or someone to run the estate? Getting it wrong is common and expensive.

FORMAT

Editorial + optional quote card

POSTING NOTES

Lead with the editorial. Use the quote card as a second post mid-week or as the first comment image.

DRAFT POST COPY

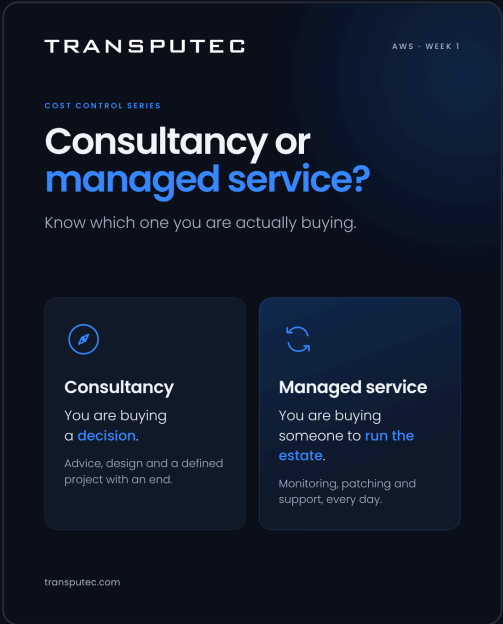

Consultancy or managed service? They sound alike. They are not the same purchase.

Consultancy buys you a decision: the right architecture, the right migration path, a plan with an end date.

A managed service buys you someone to run the estate: monitoring, patching and support, every day, against agreed service levels.

Buying one when you needed the other is common, and expensive. Before your next AWS conversation, ask a simple question: do we need a decision, or do we need someone to run it?

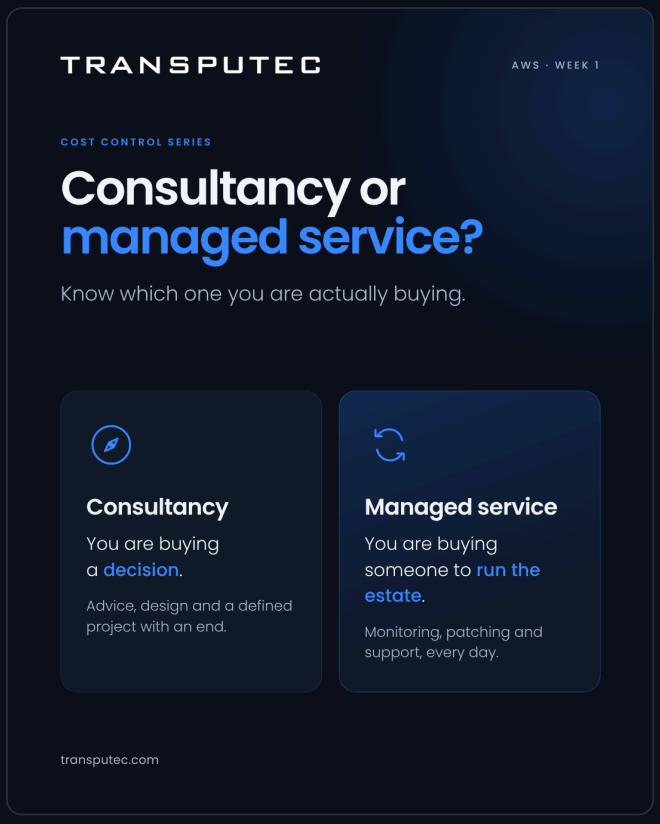

#AWS #CloudStrategy #ManagedServices #CloudCosts

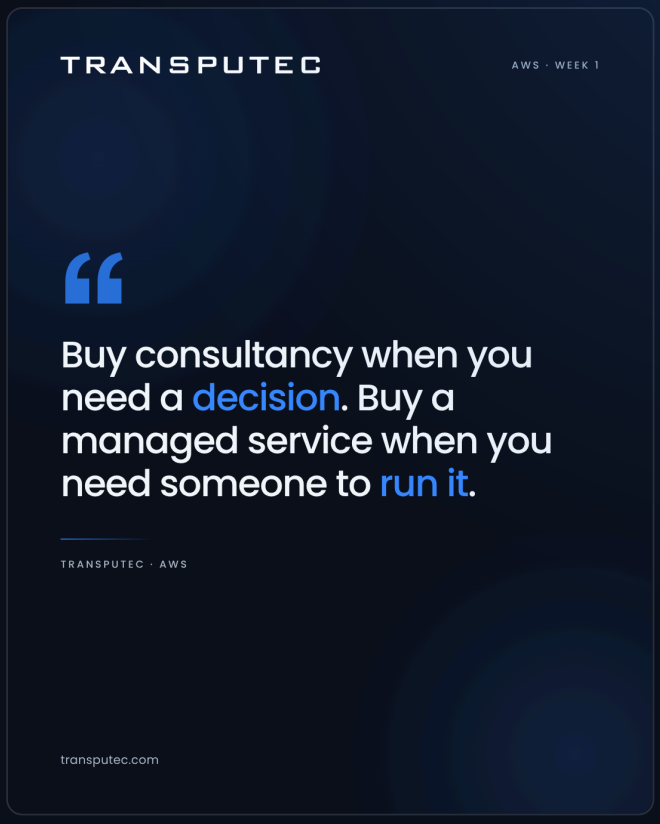

Lead Editorial · consultancy vs managed service

WEEK 1 · AWS CONSULTANCY VS MANAGED SERVICES

Assets 1 to 2 of 2 · 1080 x 1350

01 Editorial · consultancy vs managed service

02 Quote card · optional second post

WEEK 2 · MON 9 TO FRI 13 NOV · FINOPS

02

Five places your cloud cost hides

You cannot cut what you cannot see. The five usual suspects behind a climbing AWS bill.

FORMAT

Carousel, 8 slides

POSTING NOTES

Upload the PDF as a document post so it swipes. Any figures belong in the caption, with a source.

DRAFT POST COPY

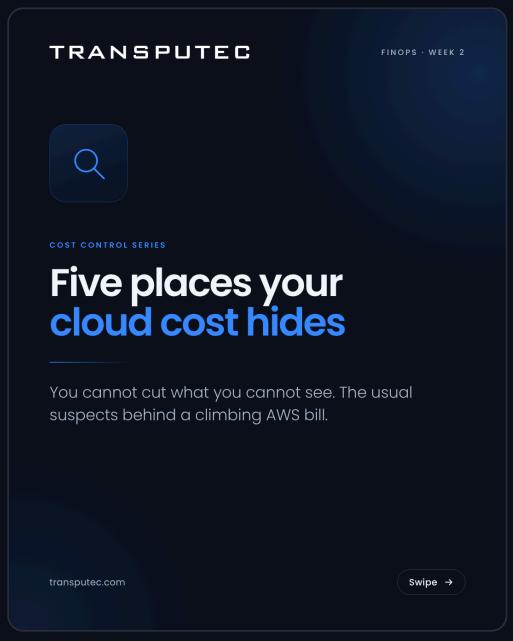

You cannot cut what you cannot see.

A climbing AWS bill is rarely one big mistake. It is usually five quiet ones: idle compute, storage nobody deletes, data on the move, forgotten environments and commitments that no longer fit.

Swipe through to see what each looks like, and exactly where to look in your own account.

Which one would you find first?

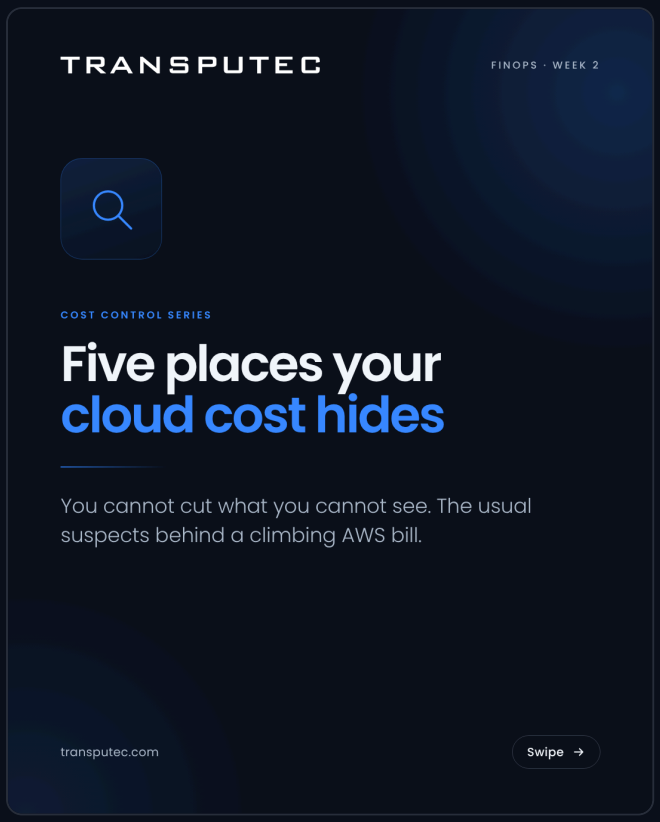

#FinOps #AWS #CloudCostOptimisation #CloudCosts

Lead Cover

WEEK 2 · FIVE PLACES YOUR CLOUD COST HIDES

Assets 1 to 4 of 8 · 1080 x 1350

01 Cover

02 Start here

03 01 Idle and oversized compute

04 02 Storage nobody deletes

WEEK 2 · FIVE PLACES YOUR CLOUD COST HIDES

Assets 5 to 8 of 8 · 1080 x 1350

TRANSPUTEC FINOPS · WEEK 2

03

Data on the move

WHAT IT LOOKS LIKE

Traffic between zones and regions, and NAT gateways processing more than anyone expected.

WHERE TO LOOK

Cost Explorer, grouped by usage type.

transputec.com 05 / 08

05 03 Data on the move

TRANSPUTEC FINOPS · WEEK 2

04

Forgotten environments

WHAT IT LOOKS LIKE

Test and proof-of-concept stacks that outlived the project they were built for.

WHERE TO LOOK

Untagged resources, and stacks with no named owner.

transputec.com 06 / 08

06 04 Forgotten environments

TRANSPUTEC FINOPS · WEEK 2

05

Commitments that do not fit

WHAT IT LOOKS LIKE

On-demand rates for steady workloads, or Savings Plans bought for usage that has since moved.

WHERE TO LOOK

Savings Plans coverage and utilisation reports.

transputec.com 07 / 08

07 05 Commitments that do not fit

TRANSPUTEC FINOPS · WEEK 2

Find yours before the next invoice.

Most estates have at least one of these. The fix starts with seeing it.

NEXT WEEK What FinOps actually is.

transputec.com 08 / 08

08 Call to action

WEEK 3 · MON 16 TO FRI 20 NOV · AWS / FINOPS

03

What FinOps actually is

FinOps is not a tool, it is a discipline: visibility, accountability, optimisation and continuous review.

FORMAT

36s vertical video (muted-safe) + myth vs reality card

Video file: w3-finops-explainer-1080x1920.mp4 · 36s · 30fps · muted-safe

POSTING NOTES

Video reads fully with sound off. Add captions file only if a voiceover is added later. Myth vs reality card works as a follow-up post.

DRAFT POST COPY

FinOps is not a tool you buy. It is a discipline your teams practise.

Four parts, one cycle:
Visibility: see where every pound goes.
Accountability: every cost has a named owner.
Optimisation: spend with intent, not by default.
Continuous review: check, adjust, repeat.

Not a project. A habit.

#FinOps #AWS #CloudFinance #CloudGovernance

Lead Myth vs reality card

WEEK 3 · WHAT FINOPS ACTUALLY IS

Assets 1 to 1 of 1 · 1080 x 1350

01 Myth vs reality card

WEEK 3 · VIDEO STORYBOARD

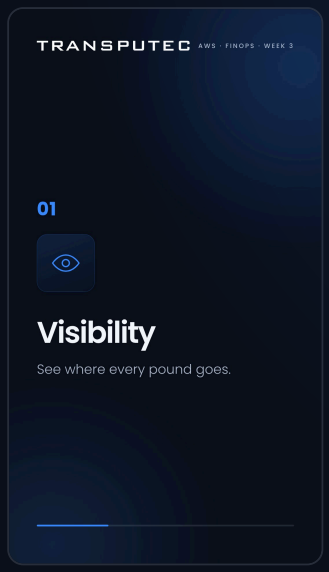

36 seconds · 1080 x 1920 · reads with the sound off

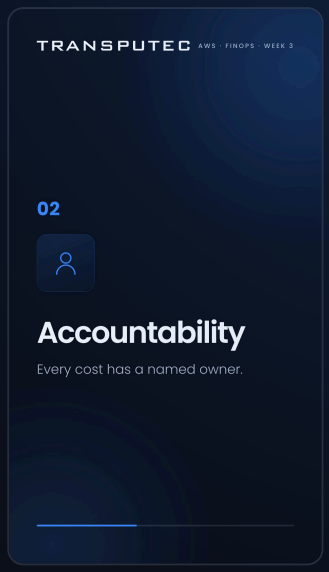

0 to 4s
FinOps is not a tool.

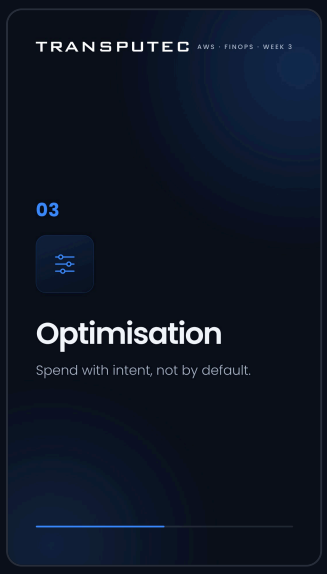

4 to 8s
It is a discipline.

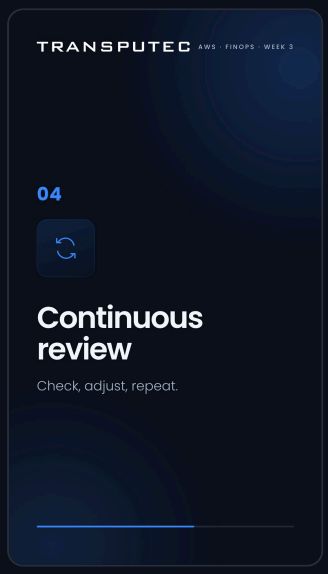

8 to 12s
01 Visibility

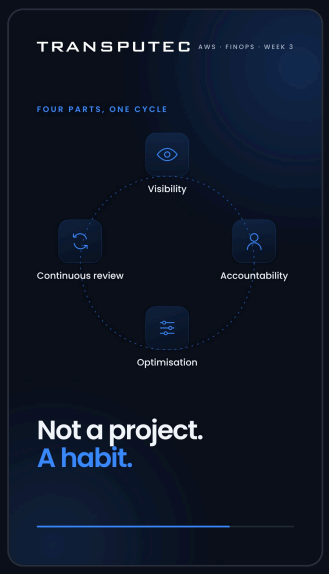

12 to 16s
02 Accountability

16 to 20s
03 Optimisation

20 to 24s
04 Continuous review

24 to 30s
Not a project. A habit.

30 to 36s
Call to action

WEEK 4 · MON 23 TO FRI 27 NOV · IT PROCUREMENT

04

The real cost of a device fleet

Buying the hardware is the cheap part. The four years after it, running and securing it, are the cost.

FORMAT

Editorial + carousel, 7 slides

POSTING NOTES

CONFIRM FIRST: the procurement offer (supply-and-manage / lifecycle / resale). Slide 7 is written neutrally until confirmed. No Lenovo or Dell logos on the images; brand names can go in the caption if approved.

DRAFT POST COPY

The laptop is the cheap part.

The invoice is only day one. After that, every device has to be deployed, supported, secured, repaired and, eventually, retired safely with its data wiped.

That is where the real cost of a fleet lives, and it rarely shows up in the purchase decision.

Plan the lifecycle, not just the purchase. [Offer line to confirm]

#ITProcurement #DeviceLifecycle #EndpointSecurity #ITManagement

Lead Editorial · the laptop is the cheap part

WEEK 4 · THE REAL COST OF A DEVICE FLEET

Assets 1 to 4 of 8 · 1080 x 1350

01 Editorial · the laptop is the cheap part

02 Carousel cover

03 The price tag

04 01 Deploy

WEEK 4 · THE REAL COST OF A DEVICE FLEET

Assets 5 to 8 of 8 · 1080 x 1350

TRANSPUTEC IT PROCUREMENT · WEEK 4

02

Support and repair

THE WORK

Tickets, faults, warranty claims and the hours people lose while they wait.

THE QUESTION

What happens when a laptop fails the day before a deadline?

transputec.com 04 / 07

05 02 Support and repair

TRANSPUTEC IT PROCUREMENT · WEEK 4

03

Secure

THE WORK

Patching, encryption, endpoint protection and a plan for lost or stolen devices.

THE QUESTION

Could you prove every device is encrypted and up to date today?

transputec.com 05 / 07

06 03 Secure

TRANSPUTEC IT PROCUREMENT · WEEK 4

04

Retire

THE WORK

Certified data wiping, responsible disposal or resale, and planning the next refresh.

THE QUESTION

Where do your old devices go, and what is still on them?

transputec.com 06 / 07

07 04 Retire

TRANSPUTEC IT PROCUREMENT · WEEK 4

Plan the lifecycle, not just the purchase.

From supply to secure retirement, one partner can manage the whole fleet.

Talk to Transputec → Follow for the series

NEXT WEEK Your AWS cost-control checklist.

transputec.com 07 / 07

08 Call to action · offer to confirm

WEEK 5 · MON 30 NOV ONWARD · FINOPS

05

Your AWS cost-control checklist

The five-point plan to review your own cloud cost. The useful takeaway, given away free.

FORMAT

Carousel, 8 slides

POSTING NOTES

Designed to be saved and shared. Use as the bridge into February webinar promotion.

DRAFT POST COPY

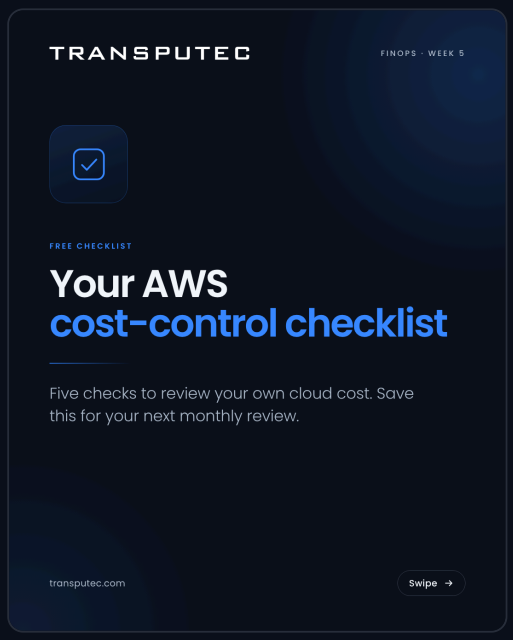

A free checklist for your next monthly cloud review.

1. Give every resource an owner
2. Switch off what is idle
3. Clear out old storage
4. Match commitments to usage
5. Set alerts, then review

Each check takes minutes in the AWS console. The value is in doing it every month. Save this, and share it with whoever owns your AWS bill.

More on this in our February cost-control webinar.

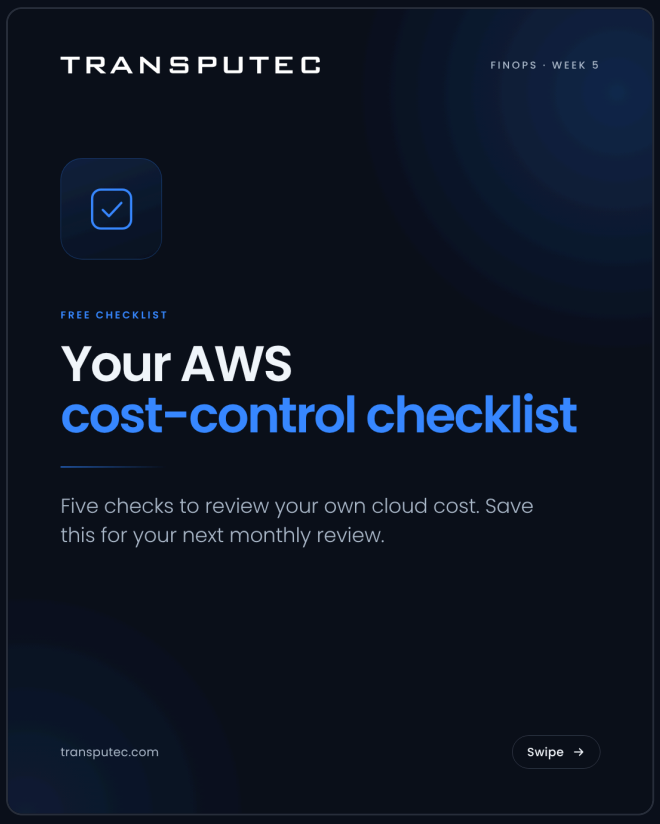

#FinOps #AWS #CloudCosts #Checklist

Lead Cover

WEEK 5 · YOUR AWS COST-CONTROL CHECKLIST

Assets 1 to 4 of 8 · 1080 x 1350

01 Cover

02 How to use it

03 01 Give every resource an owner

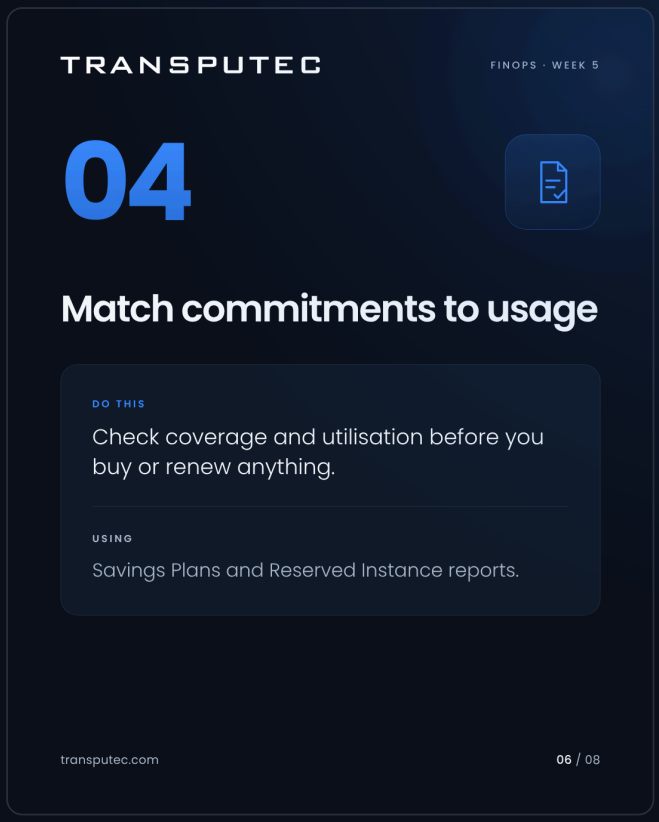

04 02 Switch off what is idle

WEEK 5 · YOUR AWS COST-CONTROL CHECKLIST

Assets 5 to 8 of 8 · 1080 x 1350

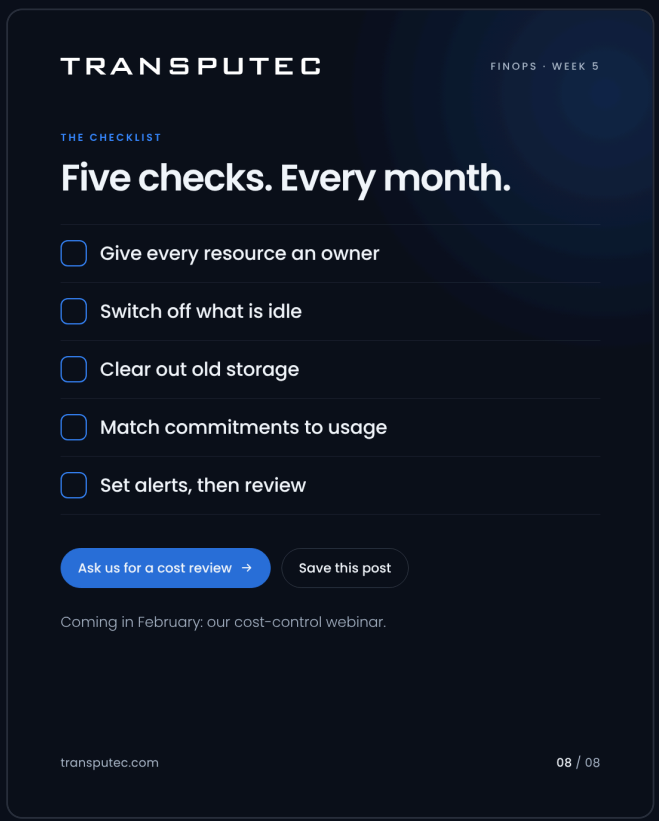

05 03 Clear out old storage

06 04 Match commitments to usage

07 05 Set alerts, then review

08 Summary and call to action

BEFORE SCHEDULING

Confirm first

Week 4 offer

Which procurement offer leads: supply-and-manage, full lifecycle, or resale. Slide 7 and the post's final line are neutral until this is set.

Final copy

Draft copy here is for layout. Swap in the approved copy before scheduling. Keep it free of em dashes.

Stats in captions

Any figures added to captions need a named, dated source.

Webinar link

Week 5 teases February. Add the registration link once live.
